

# TURKEY HILL MINIT MARKET

## Steelton Town Center

Existing Streetscape

Turkey Hill representatives have expressed an interest and desire to participate in and support the Borough's revitalization efforts. To build some consistency with the rest of the community, façade and facility improvements are proposed and recommended for the existing

store. The scope of suggested architectural and site modifications would include a new roof with pitched roof line, new facade and entry features, new gas island canopy, and site plantings, pavers and decorative columns and fencing.
